Technical specifications

Stage Plan:

Channel list:

1. Denny vocal– Shure SM58
 2. Denny guitar– XLR line (for guitar pre-amplifier)
 3. Ciarán vocal– Shure SM58
 4. Ciarán bodhran– Shure SM57 (short mic stand)
 5. Nick chanter (pipes) - Shure SM58 (short mic stand)
 6. Nick drones (pipes) - XLR line
 7. Chris vocal– Shure SM58
 8. Chris concertina– XLR line
 - 9+10. Reverb returns
 - 11+12. CD/iPod input
- 4-way monitor mix preferred, if not possible a 2-way split (Denny + Ciarán/ Nick + Chris) will usually be sufficient.
 - 31-band graphic EQ required across all FOH and monitor mixes.
 - Digital reverb (touring engineer may supply this).
 - 2-channel compressor (touring engineer may supply this).

Please contact Chris Miley (touring sound engineer) if you will have trouble supplying any of the above. We are very flexible and can usually work with what you have available, but it's nice to know in advance! We also have our own PA system for audiences of up to 200, so if you hire systems in please let us know, as we'd often prefer to bring our own.
